

Dual Enrolment

BTVI's Dual Enrolment programme provides opportunities for early access to technical and vocational education and training.

Dual Enrolment affords students in grades 10, 11 and 12 the opportunity to take BTVI technical and vocational courses while in high school. This helps students get a head start on their technical or vocational careers. Upon graduation from high school, these courses allow students to enter the workforce with employability skills or to matriculate directly into a BTVI certificate, diploma or associate degree programme.

To participate in Dual Enrolment, students in grades 10, 11 and 12 must:

- have the written permission of their parent or legal guardian and
- must submit a completed *Dual Enrolment Application for Admission* to the Admissions Department via the BTVI web portal along with all of the required documents.

Once accepted into the programme, students will receive a BTVI student ID number and will be assigned to an advising department. Students will be able to register for BTVI courses at times which do not conflict with their high school schedule.

Dual Enrolment students are required to observe all BTVI policies, rules and regulations. Failure to do so could result in the student being withdrawn from the programme. Once withdrawn, the student is not allowed to re-enter the programme. However, he/she may apply to enter a BTVI certificate, diploma or associate degree programme upon completion of high school.
